Birth Announcement – Boy

Fiskars® Tools:

Personal Paper Trimmer (4153), Border Punch - Apron Lace (5363), Squeeze Punch XL - Scalloped Square (5368), Mini Stamp Press (1353), Clear Stamps Mini Sheet - Baby (4139), Chocolate Ink (4135)

Supplies:

Brown paper (120g), blue paper (120g), white paper (140g)

Step 1: Cut out a 22x15 cm rectangle in the white paper. Use the Border Punch - Apron Lace on one side (15cm length). Fold the paper at 11cm from the non-punched side. Then fold up the punched side to 1.5cm from the border.

Step 2: Cut out a 15x8.5 cm rectangle in the blue paper. Glue it under the 1.5cm folded white paper. Cut out a 15x5 cm brown paper strip. Punch along the 2 sides with the Border Punch. Glue this strip inside the card and keep 1.5cm outside.

Step 3: Punch 4 white scalloped squares. Ink borders on 2 of them. Write the name on one inked square and stamp a baby's bottle on the other one. Glue them by shifting the inked squares from the plain ones.

Step 4: Punch a brown scalloped square. Stamp a rabbit on the white paper and cut it out with a knife. Glue the cut out rabbit on the brown scalloped square with 3D adhesive. Cut out a white strip of 2cm height and of the card width (up to the white Apron Lace strip). Paste the brown square in the middle of the white strip. Stamp 2 baby's bottles on the white strip on each side of the rabbit. Glue the white strip to 2cm from the card bottom by overlapping a bit the scalloped squares.

Step 5: Ink borders of the birth announcement with chocolate brown ink.
